

PREVENTING THE SPREAD OF THE CORONA VIRUS / COVID-19

The most important measures you can take to prevent the spread of the corona virus are as follows:

- 1. Wash your hands regularly**
- 2. Cough and sneeze into your elbow**
- 3. Use disposable tissues**

These measures are applicable for all viruses which can cause flu and colds. It is therefore important to follow this advice.

Contact with your general practitioner / family doctor

Do you have a fever and respiratory complaints (like coughing or shortness of breath) and you have visited one of the following areas in the last 14 days:

- China (including Macau en Hongkong)**
- Singapore**
- South-Korea**
- Iran**
- The Northern Italian provinces: Lombardy, Veneto, Emilia Romagna, Piedmont, Aosta valley, Trentino-South Tyrol, Friuli-Julian-Venice en Liguria**

Then contact your doctor by telephone.
